

## Railside Streetscape Improvements Stage 2 works

### Stage 2 of upgrading footpaths in Railside Avenue is about to start

Stage 1 (from Great North Rd corner to the Transport Interchange) was completed in the summer of 2006-07. Stage 2 (both sides of Railside from Westfield Mall entrance to the View Road roundabout) will be carried out between early February and mid-May. The works are principally to sidewalk areas and the impact on traffic will be minimal

This project will continue the same style and standard of paving used in stage one and will contribute to the overall revamp of the Henderson CBD, to provide a smart, desirable, place to do business.

### What will be done

- New kerbs, driveway entrances and footpaths;
- Improving the angle-parking on the western side of the road near the roundabout;
- Landscaping
- Resealing the road (carried out at night)

## Works Programme

### ▼ 4 February

Pavement works from Westfield entrance to Edsel St;  
Bus stops - temporary move to south corner of Edsel St (east side of road only.)

### ▼ Mid February - Mid-May

All other works will be carried out in this period.  
This includes pavement works from Edsel St corner to View Rd both sides; and reconstructing the angle-parking area

### ▼ Final Week (night works)

Resealing Railside between Westfield Entrance and View Road

### ▼ Mid May

Works completed (weather permitting)

## Traffic and Parking Management

- Road lanes adjacent pavement works will be closed as necessary but the median strip will be used as a traffic lane, ensuring two-way traffic at all times during pavement works
- A tailored traffic management plan will be created for the Westfield to Edsel St section, to manage traffic coming and going from the mall. Right turns into and out of the mall, will not be permitted from Railside Ave.
- While access will be maintained to all adjacent businesses during the full works period, detours will be advised for traffic not needing to use this section of Railside Ave.
- Road sealing will be undertaken over 2 nights in the final week of works. A specific traffic management plan will be in place for this..
- The west side angle-parking area will be temporarily closed for approximately 3 weeks while the area is reformed, several days notice will be given by signs and fliers.

**We apologise for any inconvenience during this period.**
