

WATER USE ACTIVITY SEVEN

Every year, Waitakere City buys 13 or 14 million cubic metres of water from Watercare Services Ltd (the company which owns the dams and water treatment plants in the Auckland region)

14 million cubic metres of water is the same as 14,000,000,000 litres. This is a huge volume of water.

Where does it all go to?

Complete this chart to show ways in which water is used. Ask your friends and people at home for ideas. Some ideas have been provided to get you started.

Houses	washing the car, washing the dog,
Unaccounted	leaking water pipes, fire fighting, flushing out water mains,
Industrial	wash down factory floor,
Commercial	cups of tea in offices,
Horticulture	watering glasshouses,
