

ECOSOURCING

Code of Practice and Ethics

Published by Waitakere City on behalf of all those industry, scientific and community parties that contributed to developing this Code Of Practice

The Code is intended for use by: nurseries, garden centres, seed collectors, liner growers, wholesale growers, landscapers, landscape architects, landowners, community groups, scientists, contract managers, local authorities, government agencies, ... who plan, grow, plant, sell or distribute NZ native plants.

(This Code is a living document, expected to change and improve over time. It is intended to sit alongside other guidelines of good practice.)

Acknowledgements

This **Code Of Practice and Ethics** was developed as a result of input from a wide range of people covering the wholesale and retail plant industry, scientific community, professional associations, local government, community organisations and volunteer concerns on both a national and local scale.

Those who kept the momentum going through their interest and contributions in a series of workshops included: Andrea Hunt, Brent Daw (Techscape), Ewen Cameron (Auckland War Memorial Museum and Auckland Botanical Society), Fiona Eddie (Oratia Native Plant Nursery), Glenys Mather, Geoff Davidson (Oratia Native Plant Nursery), Graham Falla (South Auckland Forest & Bird), Mark Dean (Naturally Native), Mike Cavanagh, Neil Mitchell (Auckland University), Scott Da Silva (Auckland Regional Council), Steve Cook, Sue Daw (Techscape).

Others who provided critical input are:

Philip Simpson (Uruwhenua Botanicals) who commented on the text and authored the paper 'Sustaining Biodiversity Through The Use Of Local Plant Provenances' contained in the appendix;

Sarah Matthewson – artist;

Random House NZ who allowed reproduction of sections of the text from the book 'The Native Garden' authored by Isobel Gabites;

Te Kawerau A Maki who advised on mana whenua issues and submitted a statement for inclusion;

And colleagues at Waitakere City Council, especially Wayne Knox for iwi coordination, Prue Quelch for project support, Pearl Dunning for word processing, Michelle Dawson for document layout, and Ngaire Eruera for editing and coordination of the launch of the Code.

Chris Ferkins (Environmental Coordinator: Parks, Waitakere City Council) is author and also project manager, responsible for coordinating the wide input and gathering of issues, ideas and solutions contained in the Code.

Comment on this Code Of Practice is welcome. Please send to:
Environmental Coordinator: Parks, Waitakere City Council (see address above).

Ministry For the Environment:

This project builds on previous work undertaken by Waitakere City Council, which was co-funded by the Minister For the Environment's Sustainable Management Fund.

Commitment

We agree to follow this Ecosourcing Code Of Practice And Ethics as it applies to all New Zealand native plants that we collect, have collected, specify through design or contract, propagate, label and sell or otherwise manage for the purposes of eco-sourcing.

Our 'Ecosourcing Strategy' that ensures the requirements of this Code are implemented as a matter of normal operation, and guides the setting up of systems within our organisation, including the development of awareness by staff, is:

Attached / Will be developed by (date):

I/We agree to produce evidence upon request that shows the implementation of this Code.
