Majority of participants: Henderson Part Funding OK: Yes

Proj Details: The school has a hall which is used by the School and the Community, this is a very low decile area and there is a need for community facilities to support them. The hall is in a poor state of repair, has difficult disability access and as Arohanui Special School is on their site and use the hall, it needs to be improved. The kitchen is not functional and the toilets need upgrading as the floor is rotting in one of them causing health and safety issues. They would like support to prepare a feasibility report and sketch drawings to bring it up to standard so that the community will want to have more activities that would benefit the wellbeing of the residents as well as the children that attend the school. From this report they will be able to fundraise and go to funding agencies to find the money to carry out the necessary upgrades.

Majority of participants: Henderson **Part Funding OK:** Yes

Proj Details: Their programme is a bringing together of all ethnic groups and ages of women to equip them with life skills that will impact on them and their families. They have childcare facilities to enable the women to attend. As the conference happens after the closing date of the fund and shortly before the decision making process takes place they apply a year in advance or they would miss out.

Comments: There are no financial accounts but there is a substantial budget and previous years accountability has always been good.

A4

The occupants of nearby properties were consulted regarding the proposed changes by letter. No replies were received.

The location of the proposed new parking control is shown on the aerial photograph attached at page A4.

RESOURCES

The proposed markings and signage changes can be implemented under the 2005/2006 maintenance budgets.

CONCLUSION

The proposed extension of an existing 'No Stopping' line in Te Atatu Road is recommended to improve road user safety.

RECOMMENDATIONS

1. That the Te Atatu Road, Te Atatu South - Extension of No Stopping Control report be received.
2. That in relation to **TE ATATU ROAD, TE ATATU SOUTH**:
 - (a) That, in accordance with the powers conferred by virtue of the Local Government Act 1974, the Land Transport Act 1998, the Transport Act 1962 and the Waitakere City Council Bylaw No.7, 1991 - Traffic, the following controls be now resolved to be specified and imposed, namely,
 - (i) on the west kerb line of **TE ATATU ROAD** starting from a point 8 metres north along the kerb line of a point adjacent to the property boundary between number 26 and 28 **TE ATATU ROAD** and extending to a point a further 12 metres north along the kerb line, a new '**NO STOPPING AT ALL TIMES**' control be put in place.
3. That the appropriate signage and/or road markings, in accordance with the provisions of Land Transport Rule: Traffic Control Devices 2004 - Rule 54002 be hereby approved to be put in place to properly establish, delineate and record the said parking limitations and restrictions.

Report prepared by: Paul Schischka, Transport Engineer.

11 HEPBURN ROAD, GLENDENE - NEW BUS STOP

PURPOSE OF THE REPORT

The purpose of this report is to seek the Henderson Community Board's approval for a new bus stop in Hepburn Road, Glendene.

BACKGROUND

Council has recently received a request from a resident of Neesons Way for a new bus stop to be installed in Hepburn Road near the intersection with Neesons Way.

A9

Neesons Way is part of a new subdivision off Hepburn Road that currently has 17 residential properties. To encourage bus use it is desirable for a bus stop to be within easy walking distance of the subdivision.

STRATEGIC CONTEXT

The Waitakere City Council's 'Integrated Transport and Communication' platform provides the strategic context for this report. The vision is for public transport and communications systems that provide fast, effective services, and for city travel facilitated by integrated, environmentally responsible and innovative design, with a focus on meeting the essential needs of all, for access, communication, and safety.

Correctly marked and sign posted bus stops are desirable to both notify public transport users of the pick up and drop off locations for bus services and to keep these locations clear of other vehicles.

ISSUES

When selecting locations for bus stops in residential areas it is normal practice for bus stops to be placed on regular bus routes at spacings of approximately 400 metres. The closest bus stops to Neesons Way are outside number 162 Hepburn Road and 16 Barrys Road. The spacing between these two stops is just over 600 metres. As this spacing is in excess of the normal bus stop spacing, installing an additional stop at approximately the mid point between the existing stops is reasonable.

It is proposed that a new bus stop be installed outside number 230 Hepburn Road just over 50 metres from the intersection of Neesons Way.

The occupants of nearby properties were consulted regarding the proposed changes by letter. No replies were received.

A5 The location of the proposed new bus stop is shown on the aerial photograph attached at page A5.

RESOURCES

The proposed markings and signage changes can be implemented under the 2005/2006 maintenance budgets.

CONCLUSION

The proposed new bus stop in Hepburn Road is recommended to provide a more convenient and closer bus stop for public transport users living nearby.

RECOMMENDATIONS

1. That the Hepburn Road, Glendene - New Bus Stop report be received.
2. That in relation to **HEPBURN ROAD, GLENDENE:**
 - (a) That, in accordance with the powers conferred by virtue of the Local Government Act 1974, The Land Transport Act 1998, The Transport Act 1962 and the Waitakere City Council Bylaw No.7, 1991 - Traffic, the following controls be now resolved to be specified and imposed, namely,
