Henderson.
WAITAKERE CITY.

Dear Sir ,

RE DP 55017 PARKER AVE.

As the trading company for the owners of the above section, WD & NM Buchanan Family Trust, we are approaching Council for your consideration of the following proposal.
The above section consists of some 9900 sq. meters, which the owners over the years have planted out in native and other trees, establishing a "life style" block.
The property ~~has been~~ ^{is} the old Waitemata /New Lynn boundary, noted as approximately 2 metres, Plantation, (refer DP 76740 and DP 23375)
Over the years the owners have kept this relatively weed free, however with the subdivision at Poturi Streams, there has been an increase in people and animal traffic onto the property.
The time has come to fence the area off, to do so on our boundary will leave an area between the boundary, which will revert back to weeds.
Would the Council consider incorporating this dead end strip into our section, so we can build a secure fence on the South boundary. Once the fence is erected, we would plant this area out in natives thus extending the City's Green Belt.

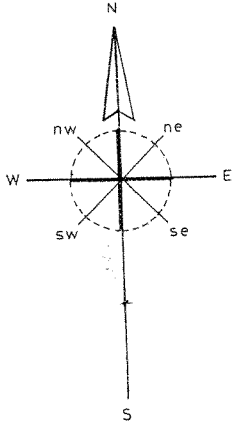

We await your decision
