No of Vols: 400 Youth Participants: 200
Total Participants: 20
Location of activity: Piha
Priority: DEV Eligible: Yes

Proj Details: The club wishes to hold a series of meetings with its members to review their governance and management. Currently the club has a two teired committee system with both committees getting bogged down in operational issues and little visionary leadership. Once the decisions are taken about improving the system, in depth training will be carried out to support everyone in their new roles.

Comments: They also requested funds for a volunteer recognition programme which involved buying T shirts and putting on an end of season activity to say thanks to members, this is not eligible under the current criteria.

Requested: \$2,250

Recommended:

Eligible:

Yes

Proj Details: The Club has been in existence for 50 years and recently they have had falling numbers which came at the same time as removal of their gaming machines which provided them with funding. The current need is to secure the future of the club by developing long term business plans, which will include, a vision for the next 20 years, strategic plan, financial plan and a marketing plan to grow membership.

Comments: There is a requirement of this fund that 25% must be put up from the organisation, in this case as the club is in a difficult financial position they have requested that the subcommittee consider waiving this requirement.

Requested: \$10,880
