Hereby make application for an exemption from the standard fencing controls relating to pools. I propose to make or have already made the following arrangements for the security of my pool: SWIM 2001/11289
SWIM 2007/80

The pool area is completely fenced with gates that meet council regulations.

SWIM "IC"
SPA "AE"

Debtors 304970(7)

Reasons why proposal should be granted: (See reverse)

On the eastern side of the house a fence was requested to be erected to follow the line of the house. This would cause the small garden area to become an area inaccessible to my mother.

The gate at the end of this area meets regulation requirements. It does however open onto a Garden and because of the height of the gate from the other side of the photo shown, my mother is unable to open it. This area of the garden is therefore only accessible from the pool enclosure.

This would mean if a fence was erected beside the house this area would become a dead area, unable to be used or accessed without removal of the front garden and the fence. It is not a large enough area to be used as a play area and the family does not have any young children.

This area has been passed as safe over the last 20 years, and whilst I understand safety around pools is paramount, this request to erect a fence does not seem reasonable.

I would therefore like to request an exemption and maintain the pool area as is, my 80 year old mother, who lives alone, is having difficulty coping with these new demands and is not in a financial position to carry out major landscaping and structural work.

I enclose a photo and sketch of the pool area and small garden area affected.

Thank you for your consideration in this matter.

I would also like to ask for an exception of the \$250.00 required to review this exemption request.

The area in question has been acceptable for the last 20 years and as my mother is a pensioner living alone, managing this added burden of cost is quite difficult.
