GUIDELINE TO THE RULES

The *Bush Living Environment* Rules apply to activities on *sites* within the “*Bush Living Environment*” as shown on the *Human Environments* Maps. Most of the *Bush Living Environment* Rules apply to “Any Activity” which may be proposed, although some rules apply only to “Residential Activities”, or only to “Non-Residential Activities”. These terms are defined in the *Plan* as follows:

- “**Residential Activity**” means the use of *land* or *buildings* by people for living accommodation (whether or not any person is subject to care or supervision), where those people voluntarily live at the *site* for a period of one month or more and will generally refer to the *site* as their home and permanent address, and includes baches and other similar private holiday accommodation, but excludes a *Temporary Activity* and a *Prohibited Activity*.
- “**Non-Residential Activity**” means *any activity* not defined as a *Residential Activity* - or a *Temporary Activity* or a *Prohibited Activity*.
- “**Any Activity**” means a *Residential Activity* or a *Non Residential Activity* but does not include a *Prohibited Activity* or a *Temporary Activity*.

There are rules in the *Plan* other than the *Bush Living Environment* Rules that may apply to a proposed activity.

The “City-Wide Rules” section includes rules on information for *resource consents*, *natural hazards*, *financial contributions*, *hazardous facilities* and *contaminated sites*, *heritage*, *Prohibited Activities* and *Temporary Activities*. Definitions of terms used in the *Plan* also appear in the *City-Wide Rules*.

The “Natural Areas Rules” cover *vegetation alteration*, *earthworks*, *impermeable surfaces*, establishment of *vegetation*, stock grazing and *forestry*.

The “Subdivision Rules” cover all standards relating to the *subdivision* of *land* in the city - including those standards which specifically apply to the *Bush Living Environment*.

An indication of which parts of the *Plan* will apply to a particular activity is given on the *Human Environments* Maps and the *Natural Areas* Maps and in the *Bush Living Environment* Rules themselves.

The procedure on the next page is a guideline to apply the *Plan* rules for an activity proposed within the *Bush Living Environment*.

Note that a *resource consent* from the Auckland Regional Council may be necessary in addition to these rules.

PROCEDURAL GUIDELINE FOR THE RULES

STEP 1

Locate the *site* on the *Natural Areas* Maps and the *Human Environments* Maps. If the *site* is within the *Bush Living Environment*, refer to this guideline. If the *site* is within another *Human Environment* refer to the other appropriate guideline. Note the *Natural Area* which applies to the *site*, and any other information from the maps which is relevant such as *sensitive ridges, heritage, designation* or *scheduled site* status. If there is a particular notation on the maps, refer to the relevant part of the *Plan* containing rules in respect of that notation (see the index at the front of the Rules Section).

STEP 2

Refer to the *Roading Hierarchy* map. Note any requirements that apply to the *site*, or the area within which the *site* is located.

STEP 3

Check to see whether the *site* is within a *Natural Hazards* area (information is available from the Council). Refer to the *Natural Hazards* requirements in the *City-Wide Rules* if it is.

STEP 4

Determine whether the activity is a *Prohibited Activity* (see the *City-Wide Rules*). If it is, then the activity is not permitted and no *resource consent* application can be made.

STEP 5

Determine whether the activity proposed is a *Residential Activity* or a *Non-Residential Activity* (refer to the definitions on the previous page).

STEP 6

Check the *Bush Living Environment* Rules. The activity must comply with all relevant Rules to be permitted as of right. Rules which may apply to *Any Activity* include:

- Rule 1 General Rules
- Rule 2 Building Location
- Rule 4 Building Height
- Rule 5 Height in Relation to Boundaries
- Rule 6 Yards
- Rule 7 Building Coverage

- Rule 10 Carparking and Driveways
- Rule 12 Air Discharges, Odour, Dust, Glare and Vibration
- Rule 13 Signs
- Rule 14 Relocated Buildings
- Rule 15 Infrastructure

Additional Rules which may apply only to *Non-Residential Activities* include:

- Rule 8 Non-Residential Activities
- Rule 9 Traffic Generation
- Rule 11 Noise

Additional Rules which apply only to *Residential Activities* include:

- Rule 3 Residential Activities/Density

STEP 7

Under each of the relevant rules the activity proposed will be either a *Permitted Activity*, a *Controlled Activity*, a *Limited Discretionary Activity*, a *Discretionary Activity* or a *Non-Complying Activity*. A *resource consent* is required for all activities other than *Permitted Activities*. If, under a particular rule, an activity is a *Permitted Activity*, then there is no need for a *resource consent* application in terms of that Rule. However the activity may still require a *resource consent* under another rule. Refer to the relevant rule page and the “Resource Consents” part of the Introduction to the Rules for guidance on *resource consent* applications.

STEP 8

Once it has been established that all relevant Rules are met, or *resource consents* have been granted, and the other requirements of the *Plan* are also satisfied, then the activity may proceed. Note that approvals under other legislation, eg the issuing of a *building consent*, may be necessary.

RULES

1.0 General
