GUIDELINE TO THE RULES

The *Coastal Villages Environment* Rules apply to activities on *sites* within the “*Coastal Villages Environment*” as shown on the *Human Environments* Maps. Most of the *Coastal Villages Environment* Rules apply to “Any Activity” which may be proposed, although some rules apply only to “Residential Activities”, or only to “Non-Residential Activities”. These terms are defined in the Plan as follows:

- **“Residential Activity”** means the use of *land* or *buildings* by people for living accommodation (whether or not any person is subject to care or supervision), where those people voluntarily live at the *site* for a period of one month or more and will generally refer to the *site* as their home and permanent address, and includes baches and other similar private holiday accommodation, but excludes a *Temporary Activity* and a *Prohibited Activity*.
- **“Non-Residential Activity”** means *any activity* not defined as a *Residential Activity* or a *Temporary Activity* or a *Prohibited Activity* and a *Rural Activity*.
- **“Any Activity”** means a *Residential Activity* or a *Non Residential Activity* but does not include a *Prohibited Activity* or a *Temporary Activity*.

There are rules in the *Plan* other than the *Coastal Villages Environment* Rules that may apply to a proposed activity.

The “City-Wide Rules” section includes rules on information for *resource consents*, *natural hazards*, *financial contributions*, *hazardous facilities* and *contaminated sites*, *heritage*, *Prohibited Activities* and *Temporary Activities*. Definitions of terms used in the *Plan* also appear in the *City-Wide Rules*.

The “Natural Areas Rules” cover *vegetation alteration*, *earthworks*, *impermeable surfaces*, establishment of *vegetation*, stock grazing and *forestry*.

The “Subdivision Rules” cover all standards relating to the *subdivision* of *land* in the city - including those standards which specifically apply to the *Coastal Villages Environment*.

An indication of which parts of the *Plan* will apply to a particular activity is given on the *Human Environments* Maps and the *Natural Areas* Maps and in the *Coastal Villages Environment* Rules themselves.

The procedure on the next page is a guideline to apply the *Plan* rules for an activity proposed within the *Coastal Villages Environment*.

Note that a *resource consent* from the Auckland Regional Council may be necessary in addition to these rules.

PROCEDURAL GUIDELINE FOR THE RULES

STEP 1

Locate the *site* on the *Natural Areas* Maps and the *Human Environments* Maps. If the *site* is within the *Coastal Villages Environment*, refer to this guideline. If the *site* is within another *Human Environment* refer to the other appropriate guideline. Note the *Natural Area* which applies to the *site*, and any other information from the maps which is relevant such as *sensitive ridges*, *heritage*, *designation* or *scheduled site* status. If there is a particular notation on the maps, refer to the relevant part of the *Plan* containing rules in respect of that notation (see the index at the front of the Rules section).

STEP 2

Refer to the *Roading Hierarchy* map. Note any requirements that apply to the *site*, or the area within which the *site* is located.

STEP 3

Check to see whether the *site* is within a *Natural Hazards* area (information is available from the Council). Refer to the *Natural Hazards* requirements in the *City-Wide Rules* if it is.

STEP 4

Determine whether the activity is a *Prohibited Activity* (see the *City-Wide Rules*). If it is, then the activity is not permitted and no *resource consent* application can be made.

STEP 5

Determine whether the activity proposed is a *Residential Activity* or a *Non-Residential Activity* (refer to the definitions on the previous page).

STEP 6

Check the *Coastal Villages Environment* Rules. The activity must comply with all relevant Rules to be permitted as of right. Rules which may apply to *any activity* include:

- Rule 1 General Rules
- Rule 2 Building Location - Natural Landscape Elements
- Rule 4 Building Height
- Rule 5 Height in Relation to Boundaries
- Rule 6 Yards
- Rule 7 Building Coverage
- Rule 10 Car parking and Driveways

Rule 12 Air Discharges, Odour, Dust, Glare and Vibration

Rule 13 Signs

Rule 14 Relocated Buildings

Rule 15 Infrastructure

Additional Rules which may apply only to *Non-Residential Activities* include:

Rule 9 Non-Residential Activities

Rule 10 Traffic Generation

Rule 11 Noise

Additional Rules which apply only to *Residential Activities* include

Rule 3 Residential Activities/Density

STEP 7

Under each of the relevant rules the activity proposed will be either a *Permitted Activity*, a *Controlled Activity*, a *Limited Discretionary Activity*, a *Discretionary Activity* or a *Non-Complying Activity*. A *resource consent* is required for all activities other than *Permitted Activities*. If, under a particular rule, an activity is a *Permitted Activity*, then there is no need for a *resource consent* application in terms of that Rule. However the activity may still require a *resource consent* under another rule. Refer to the relevant rule page and the “Resource Consents” part of the Introduction to the Rules for guidance on *resource consent* applications.

STEP 8

Once it has been established that all relevant Rules are met, or *resource consents* have been granted, and the other requirements of the *Plan* are also satisfied, then the activity may proceed. Note that approvals under other legislation, eg the issuing of a *building consent*, may be necessary.

RULES
