

GUIDELINE TO THE RULES

“The *Countryside Environment* Rules apply to activities on *sites* within the *Countryside Environment* as shown on the *Human Environments* Maps. Most of the *Countryside Environment* Rules apply to “Any Activity” which may be proposed, although some rules apply only to “Residential Activities”, or only to “Rural Activities”, or only to “Non-Residential Activities”. These terms are defined in the *Plan* as follows:

- **“Residential Activity”** means the use of *land* or *buildings* by people for living accommodation (whether or not any person is subject to care or supervision), where those people voluntarily live at the *site* for a period of one month or more and will generally refer to the *site* as their home and permanent address, and includes baches and other similar private holiday accommodation, but excludes a *Temporary Activity* and a *Prohibited Activity*.
- **“Rural Activity”** means the use of *land* or *buildings* for the purposes of commercial agricultural, horticultural or pastoral farming, but does not include *intensive livestock farming, woodlots or forestry*.
- **“Non-Residential Activity”** means *any activity* not defined as a *Residential Activity* - or a *Temporary Activity* or a *Prohibited Activity*.
- **“Any Activity”** means a *Residential Activity* or a *Non-Residential Activity* but does not include a *Temporary Activity* or a *Prohibited Activity*.

There are rules in the *Plan* other than the *Countryside Environment* Rules that may apply to a proposed activity.

The “City-Wide Rules” section includes rules on information for *resource consents, natural hazards, financial contributions, hazardous facilities and contaminated sites, heritage, Prohibited Activities* and *Temporary Activities*. Definitions of terms used in the *Plan* also appear in the *City-Wide Rules*.

The “Natural Areas Rules” cover *vegetation alteration, earthworks, impermeable surfaces, establishment of vegetation, stock grazing and forestry*.

The “Subdivision Rules” cover all standards relating to the *subdivision* of *land* in the City - including those standards which specifically apply to the *Countryside Environment*.

An indication of which parts of the *Plan* will apply to a particular activity is given on the *Human Environments* Maps and the *Natural Areas* Maps and in the *Countryside Environment* Rules themselves.

The procedure outlined on the next page is a guideline to apply the *Plan* Rules for an activity proposed within the *Countryside Environment*.

Note that a *resource consent* from the Auckland Regional Council may be necessary in addition to these rules.

PROCEDURAL GUIDELINE FOR THE RULES

STEP 1

Locate the *site* on the *Natural Areas* Maps and the *Human Environments* Maps . If the *site* is within the *Countryside Environment*, refer to this guideline. If the *site* is within another *Human Environment* refer to the other appropriate guideline. Note the *Natural Area* which applies to the *site*, and any other information from the maps which is relevant such as *sensitive ridges, heritage, designation* or *scheduled site* status. If there is a particular notation on the maps, refer to the relevant part of the *Plan* containing rules in respect of that notation (see the index at the front of the Rules Section).

STEP 2

Refer to the *Roading Hierarchy* map. Note any requirements that apply to the *site*, or the area within which the *site* is located.

STEP 3

Check to see whether the *site* is within a *Natural Hazards* area (information is available from the Council). Refer to the *Natural Hazards* requirements in the *City-Wide Rules* if it is.

STEP 4

Determine whether the activity is a *Prohibited Activity* (see the *City-Wide Rules*). If it is, then the activity is not permitted and no *resource consent* application can be made.

STEP 5

Determine whether the activity proposed is a *Residential Activity*, or a *Rural Activity*, or a *Non-Residential Activity* (refer to the definitions on the previous page).

STEP 6

Check the *Countryside Environment* Rules. The activity must comply with all relevant Rules to be permitted as of right. Rules which may apply to *Any Activity* include:

- Rule 1 General
- Rule 3 Yards
- Rule 4 Building Height
- Rule 5 Outdoor Storage
- Rule 6 Building Coverage
- Rule 9 Noise

Rule 10 Air Discharges, Odour, Dust, Glare and Vibration

Rule 11 Signs

Rule 12 Relocated Buildings

Rule 13 Infrastructure

Additional Performance Standards which may apply only to *Residential Activities* include:

Rule 2 Residential Activities/Density

Additional Performance Standards which may apply only to *Non-Residential Activities* include:

Rule 7 Non-Residential Activities

Rule 8 Traffic Generation, Access and Car Parking

STEP 7

Under each of the relevant rules the activity proposed will be either a *Permitted Activity*, a *Controlled Activity*, a *Limited Discretionary Activity*, a *Discretionary Activity* or a *Non-Complying Activity*. A *resource consent* is required for all activities other than *Permitted Activities*. If, under a particular rule, an activity is a *Permitted Activity*, then there is no need for a *resource consent* application in terms of that Rule. However the activity may still require a *resource consent* under another rule. Refer to the relevant rule page and the “Resource Consents” Section of the *Plan* for guidance on *resource consent* applications.

STEP 8

Once it has been established that all relevant rules are met, or *resource consents* have been granted, and the other requirements of the *Plan* are also satisfied, then the activity may proceed. Note that approvals under other legislation, eg the issuing of a *building consent*, may be necessary.
