

## 5 Monitoring Progress

### ANNUAL PLAN PERFORMANCE MEASURES

The Council has over 20 performance measures in its Annual Plan which relate to safety.

Through the budgeting process, Council staff are required to outline how each project impacts on community safety.

### OTHER MEASURES

The Council also has a role in managing the development of public space through its District Plan and other statutory means. Many of these activities have scope for further improving community safety.

The Council's overall goal is ongoing improvement of community safety in Waitakere City.
