

Project Pipi

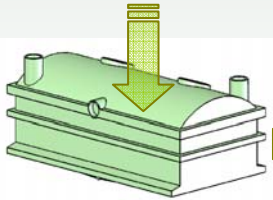

The Wastewater Treatment process

The Wastewater Treatment compound can just be seen from this window, located within the wooden fence. Please feel free to inspect it outside. Here's how the treatment process works ...

A handful of tiger worms is worth a loo in the bush!!

'Blackwater'
- toilets
- kitchen sinks

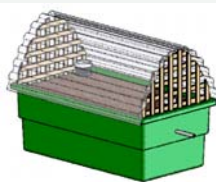

Wormerator

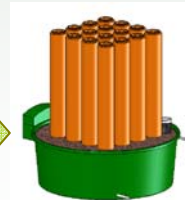

'Greywater'
- urinals
- hand-basins

Buffer Tank

Plant Filters

Evaporator
