

Section 4 : Means of Implementation

Chapter 33 : Financial resources and mechanisms

Economic growth, social development and poverty eradication are the overriding priorities of developing countries. Developing countries need financial resources and technology to enable them to implement Agenda 21.

Objective

- To develop funding mechanisms and financial resources for the implementation of Agenda 21.

Activities

- Developed nations should fund the implementation of Agenda 21 predominantly through their private and public sectors.
- Developing nations should fund the implementation of Agenda 21 predominantly through overseas development aid.
- Developed countries should increase their overseas aid contributions to the United Nations target of 0.7 percent of G.N.P.
