

## 4 Planning for Safety

### AN ACTION PLAN FOR SAFETY

In August each year the Council approves an Action Plan for Safety. This Plan outlines the new activities Council will undertake each year to promote safety in the City.

### WAITAKERE CITY SAFETY PLAN

The Council will publish its aims, actions and performance measures for safety each year through its contribution to the Waitakere City Safety Plan.

This inter-agency document records the aims and objectives of key safety-related agencies in the City for the year. The 2000/01 Waitakere City Safety Plan has made the scope of safety-related activity occurring in the City explicit for the first time.

Co-ordination of safety projects through the City Safety Plan allows gaps in services to be identified and promotes co-operation for the reduction of injury and crime.

### REPORTING BACK

A report on what the Council has achieved each year in terms of community safety will be provided via Council committee meetings, and the local media, and the Council's own newsletter, 'Waitakere City News'.
